About Proeftuin Randwijk:

Proeftuin Randwijk is a private and independent research and demonstration orchard in Holland. The partners in the orchard are Fruitconsult, Wageningen University & Research (WUR), The Centrale Adviesdienst Fruitteelt (CAF) and the Dutch Fruitgrowers Organisation (NFO). Proeftuin Randwijk shows an interesting mix of fundamental research and practical demos in the field of sustainable fruit cultivation, modern varieties and rootstocks, efficient production systems, and new technologies. Proeftuin Randwijk is thus the central place in the Netherlands where independent research takes place and where innovations in the form of demos can be shown.

Proeftuin Randwijk wants to work closely with growers and companies related to the fruit growing business. Topfruit growers can support the orchard for € 175,- (excl. V.A.T.) per year. We are pleased that we already welcomed some foreign growers as a supporter. Other companies can become a sponsor of the orchard for € 2.500,- (excl. V.A.T.) per year. Currently we have 370 supporters and over 60 sponsors. Supporters and sponsors have various privileges. For instance they have access to results from most of the demonstrations on the orchard. Obviously results of confidential research aren't open to supporters or sponsors.

If you need more information on the open day or if you want to become a supporter or sponsor please send an email to info@proeftuinrandwijk.nl
